Prevention Works • Treatment is Effective • People Recover  
SEPTEMBER 2016

## Finding Hope Through Recovery

Tuesday, September 27, 2016 • 5:00 PM – 7:00 PM  
P.A.C.E. Center • 20000 Pikes Peak Avenue, Parker, CO

**\*\*Food and beverages will be provided by hosts\*\***

As you are aware, we are in the midst of one of the largest public health crises in decades that continues to grow. It has had a devastating impact on our nation and on our state. Statistics from the CDC show that our nation lost over 47,000 lives in 2014. Six out of every ten overdose deaths were caused from an opioid overdose. In our state, we lost 899 lives in 2014, a 68% increase from 2002 (Colorado Health Institute, 2016).

Addiction is a relentless disease that impacts more than the individual suffering. It affects their family, communities,

work, and schools. Valley Hope and Sandstone Care have joined forces to host a town hall meeting to foster hope, bring about change, and talk about solution. With your help we can destigmatize addiction and save lives.

Join local experts and your fellow community members in an imperative conversation about addiction, recovery, and prevention. This **FREE public event** will inspire hope and healing for our community.

It is time to join together and work as one against the opioid epidemic.
